

Fading Light
Lyrics by David Saul

My eyes are closed
No sign that I'm alive
How long have I been here?
How did I survive?

Then I sense you're near
Beside me in this room
I can't communicate
My mind is trapped inside this tomb

Fading light – I'm fading
Fading light – escaping
Fading light – I fade away

My body is frozen
Thoughts are eating me inside
Will I see your face?
And look into your eyes

How long have I been this way?
This life is just obscene
I can't go on this way
I'll fight these damn machines
